Subject: Protect local workers and their jobs

Please support local workers, their families, and their jobs with a cleanup plan that protects them in both economics and physical health.

Clean rivers are vital for healthy populations. The Willamette river is particularly of importance because of the many people who depend on river-related jobs for income. Please be sure to develop and execute a cleanup for the Willamette river that is thorough and which keeps the workers around the river safe.

For the harbor workers and their loved ones, please do what's right for the in completely and safely cleaning up the Willamette. Thank you!

Sincerely,

(b) (6)
